Dear Safeway Policy Makers:

It's been two years now since you swapped out O Organics Half & Half paper packaging for plastic packaging in the Port Angeles, WA stores, and so many other communities. We do NOT need more single-use plastic packaging on this planet! PLEASE go back to paper packaging you used for so many decades because it is SO much less harmful to the environment.

The following article (<https://worthyvisions.com/2021/12/25/consumer-alert/>) continues to be sent to these organizations:

**When Did This Happen?** Approximately 01/02/2021

**Product Name/Description:** O Organics Half & Half (Safeway brand)

Safeway has been a great neighbor for so many years. PLEASE be part of the solution, not the problem!! Thank you!

Sincerely,
